### OUR LITTLE BOY.

A Story of Infantile Suffering truly as told by his Parents.

Mr. Editor .- We feel it our duty to Mr. Editor.—We feel it our duty to have done for our little boy, who has been terribly afflicted with Salt Rheum, Scrofula, and Erysipelas ever since he was been, and nothing we could give him helped him until we tried CUTICURA, which, after using quite a quantity, began to help him and gradually cured him, until he is now as fair as any child. His body was completely covered, and his isce and hands awelled very badly. We had no comfort with him: it was so much work to take care of him, and he suffered work to take care of him, and he suffered so. We began to treat him when he was 18 months old, giving him at first 10 drops of the Curicura Resolvent at a drops of the CUTICURA (SECLIFERT AL a time, behing in warm water and CUTICURA SOAP, and applying CUTICURA carefully to the entire body. He is now 3% years old and is perfectly well. We have not written before, because we thought it might appearage in; but it has not, and we are very thankful.

## TELEGRAPHIC

The Telegrapher's Strike.

New York, 3.—The strike now seems to have settled down to a question of endurance. Mr. Gould outlined this plan in his statement to a fried d while talking of the situation. He said the present strike was but a skirmish time in the fight which has been projected by the Knigats of Labor, of which the brotherhood is a branch. Every corporation or firm or individual who employe a large number of men are interested in a cing this movement defeated, for they know that its success means the success of the Knigh's of Labor. Owing to the great interests involved, the Western Union cannot said will not give in. No matter what its has is, or to what inconvenience the public is will not give in. No matter what its less is, or to what inconventages the public is put. Mr. Gould visited the operating room and had a long conversation with the menager. The Western Union claim to have secured the services of seven strikers to-day, and the brotherhood ecknowledged that they lost two. Chicago, 3.—Gameral Superintendent Clowry received a telegram this morning from Charles A. Tinker, superintendent of the western division of the Western Union Telegraph Company, dated New York, which reads as follows: Six more operators came in from the New York strikers to-day, making twenty-six in all here, and day, making twenty-six in all here, and over 100 have returned since the strike in this division. Reports of other with-drawals from our force in any direction

#### California Crops,

are false. All are sensational reports daily circulated through the channels of the strikers.

San Francisco, 3.—It is now known that the hot north winds in June did more damage to wheat than could bave been at the time supposed. Over a large area the wind caught the grain still in the milk, and although in many sections wheat looked well, it was found to be so shrivelied as to hardly pay to cut it. The secretary of the State Board of Agriculture has just issued figures putting the wheat acreage for the present year at two million six hundred thousand acres. Notwithstanding the increased wheat acreage for the present year at two million is hundred thousand acres. Notwithstanding the increased acreage over last year he estimates the crop will be 20 per cent tess than last year. As it was only one million two hundred thousand tons, this would make the present year's total crop under a million. The best grain authorities here unhesitatingly pronounce the secretary's estimate entirely erroneous, and say he is a notoriously low estimator. They say wheat will be probably 20 per cent less than the quantity estimated prior to the lat of June, which was one million six hundred thousand tons. Deducting that required in home consumption would leave nine hundred and fifty thousand tons for export. Careful examination and comparison sub tantiate the correctness of these figures. ness of these figures.
